3 days 2 nights

As newlyweds, let the FCC set the scene in the first chapter of your story. Relax into your new chic refuge, as you're served drinks by the saltwater pool. Under the arbor, admire the hotel's eco-friendly design, inspired by cool 1960's Khmer architecture.

Scope your first sight of the historic complex as you float in a balloon above Angkor. Even from this height and reduced scale, Angkor Wat commands the jungle. Come back to earth and take in the magical setting of the sun at Phnom Bakeng Temple. As birds circle above, steal a kiss from the one you love.

After sundown, steep yourselves in a Romance Bath. Rich foam and seasonal flowers with fragrant blossoms calm the mind and soften and hydrate the skin. The Balancing Foot massage in our Visaya Spa combines a sea-salt scrub with reflexology to prepare your feet to explore the secrets of the temples. Indulgence continues with champagne and canapés served by the pool.

As night descends, take a lovers' stroll through the town. Investigate the wares at the night markets or seek out Khmer delicacies. Return to rest. Forget civilization, dim the lights, and sleep in late. Cherish your long morning with a bountiful breakfast in bed.
